ADELEYE REMI ALARAPE

Summary

I am a results-oriented and highly adaptable professional with 3 years of expertise in frontend development, specializing in JavaScript, React.js, and Redux. My passion lies in creating captivating and user-friendly web applications with a strong focus on creative design. I have a proven track record of successfully delivering projects on time and within budget, showcasing my problem-solving skills and innovative approach. I am committed to staying updated on the latest advancements in the field. As a service-focused professional, I am dedicated to exceeding client expectations and ensuring exceptional user satisfaction. I am now seeking an opportunity as a Senior Frontend Developer to leverage my skills and experience, contributing to the success and growth of a dynamic organization.

Professional Skills

- HTML, CSS, and JavaScript
- Responsive Design
- Web Framework
- Debugging and Testing
- CSS Preprocessing
- Frontend Build Tools
- Continuous Learning
- Version control/Git
- Cross-Browser Compatibility
- Performance Optimization
- Browser Developer Tool
- Problem Solving and Critical thinking
- Communication and Collaboration
- Ajax and APIs
- User Experience and User interface Design

Technical Skills

- HTML5, CSS3, JavaScript
- React.js
- Package Managers
- Command Line
- RESTFul APIs
- UX/UI Design Concept
- SEO
- Web Accessibility (WCAG)
- Testing and Debugging
- Performance Optimization
- Ajax and APIs
- Responsive Web design
- Bootstrap and tailwind CSS framework
- Version Control/Git
- Frontend Build Tools
- Progressive web Apps (PWA)

Experience

JUINOR FRONTEND DEVELOPER – 6/2023 to present.

WRAGBY BUSINESS SOLUTION (Microsoft Partnership Company)

- Project Collaboration: Collaborated with cross-functional teams, including designers and backend developers, to deliver seamless frontend solution for various project.
- HTML, CSS, JavaScript Development: Played a vital role in building and maintaining the frontend architecture of multiply web applications. Demonstrated proficiency in HTML5, CSS3, and JavaScript to create engaging and responsive user interface.
- React.js Implementations: Leverage my Knowledge of React.js to Develop interactive and Reusable components, enhancing the overall user experience of our applications.
- Responsive Design: Ensured that all web applications were optimized for various devices and screen sizes, delivering a consistent experience to users across platforms.
- Skills used: Version control, performance optimization, UI and UX Enhancements, React.js, RESTful APIs, vite, npm, yarn, web package, CSS frameworks, Bug Fixing and Testing

Upwork Freelancer – 2020 to present.

- **Client Communication:** Effectively communicated with clients to understand their project requirements, objectives, and desired outcomes.

- **Frontend Development:** Utilized my expertise in HTML, CSS, and JavaScript to create responsive and visually appealing user interfaces for web applications.

- **React.js and Vue.js Development:** Leveraged React.js and Vue.js to build interactive and dynamic user interfaces, enhancing user engagement and experience.

- **Cross-Browser Compatibility:** Ensured that all web applications were compatible with major web browsers, providing a consistent experience to users.

- **UI/UX Enhancements:** Collaborated with clients and designers to implement UI/UX improvements, optimizing the overall user experience.

- **Version Control and Collaboration:** Used Git for version control, allowing seamless collaboration with clients and maintaining code integrity.

- **7. Responsive Web Design:** Developed websites that seamlessly adapt to various devices and screen sizes, catering to a broader audience.

- **8. Performance Optimization:** Implemented techniques such as code minification and image optimization to enhance website performance and load times.

- **Bug Fixing and Testing:** Actively participated in debugging and testing, identifying and resolving issues to ensure a smooth and error-free user experience.

- **Meeting Deadlines:** Successfully managed multiple projects simultaneously, meeting tight deadlines and delivering high-quality work within specified timeframes.

- **Continuous Learning:** Kept myself updated with the latest frontend technologies and trends, applying newly acquired knowledge to deliver cutting-edge solutions.

Intern Cloud computing – 1/2019 (7 month)
Wragby Business solution (Microsoft partnership company)

- **Azure Cloud Services:** Assisted in the deployment and management of various cloud services on the Azure platform. This included setting up virtual machines, storage accounts, Azure Functions, and App Services.

- **TSS Integration:** Worked with the TSS (Technology Stack Services) team to integrate cloud-based solutions into the existing infrastructure, optimizing performance and scalability.

- **Azure Resource Management:** Developed skills in managing and monitoring Azure resources using tools like Azure Portal, Azure CLI, and Azure Monitor.

- **Security and Compliance:** Collaborated on implementing security best practices and compliance measures to ensure data protection and regulatory adherence within the cloud environment.

- **Backup and Disaster Recovery:** Assisted in setting up backup and disaster recovery strategies, ensuring business continuity and data resiliency.

- **Continuous Learning:** Engaged in self-directed learning and training, exploring various Azure services and industry best practices to enhance my cloud computing skillset.

Education

Bachelor of Engineering: **Electrical and Electronics** -
2021 **Ekiti State University**, Nigeria

Certifications

- Azure certified- **Microsoft.**

- Programming Languages and frameworks: **JavaScript, HTML5, CSS, python, React.js, bootstraps** , tailwind, Git, npm,
